

Individual assignment – subcontract management

With reference to the sub-contract management section in your notes compile a **report** on how your organisation approaches the management of their subcontracts. Does it follow any of the processes and procedures described? Discuss any advantages and disadvantages of the approach used, using the information that you are given in the notes.

In addition, using this information, prepare an outline example of a sub-contract management plan for the simulated project. This should then be included in your PEP.

Approach this report in the same way as you were instructed to approach the Module A individual assignment. Submit as outlined in the Module A instructions.

Write about 1000 words, plus illustrations/diagrams and plus bibliography. This is approximately 2-4 sides of A4.

Sub-contract management plan – as appropriate.

The learning outcome that this work contributes to is:

Have an appreciation and understanding of the administration of contracts, and the methods of certifying payments and approving variations and changes to the contracts.
