

Individual assignment - project structures

With reference to the organisational structures described in the notes, compile a report on how your organisation structures its projects. Does it follow any of the organisational structures described? Discuss any advantages and disadvantages of the approach used. Would you make any recommendations to change the structure or to overcome the disadvantages of your structure?

Write about 1000 words, plus illustrations/diagrams and plus bibliography. This is approximately 2-4 sides of A4.

How to approach the report

You are being asked to find out how your company runs its projects. You will have to ask a few people in the organisation for this information. You will hopefully find that there is a uniform approach within your company which is what you will write about. You are then being asked to assess whether there might be a better way of doing this. At this point, you can demonstrate that you have read the notes and offer your suggestions based on your reading. You may wish to read other material that you can find online, in books, or in your workplace. If you do this, please make a note of anything that you have read in the following way at the end of your essay:

Bibliography

- APM Body of Knowledge 5th Ed. (2008), Association for Project Management.
- Cost Estimators Reference Manual (1995), R. Stewart, John Wiley & Sons, Inc.

Where you have made a direct reference or quote another source, put an acknowledgement in brackets next to the reference e.g. (ACostE 2018).

The learning outcome that this work contributes to is:

Have an appreciation and understanding of the structure of organisations and their relationship with projects.

Etiquette for submission:

Submit as requested by the tutor (usually one week before the next workshop).

Make sure you put **your name** in the header of the document.

When naming your file for saving and submitting, please use the following format:

Example: MacLeod Alistair Module A Ind

When asked for 1,000 words and illustrations/diagrams, please submit just that i.e. no table of contents, no front page, just what you are asked for!

Although this is an individual assignment, there will be similarities in the output from delegates from the same organisation. Sharing thoughts and ideas with other people is an important part of the learning process. Discuss your ideas with other people, but the final written document should be unique.

Marking criteria:

	Available marks	Actual marks
Explanation of your company's organisational structure for managing projects.	15	
Comparison to theory.	20	
Advantages/disadvantages discussed.	20	
Relevant recommendations.	15	
Report structure (clear introduction, clear conclusion etc.).	10	
Evidence of further reading.	5	
Use of referencing and illustrations.	5	
Standard of spelling, grammar and clarity of expression.	10	
Total	100
