

### Individual assignment - estimating

Find out how your organisation approaches estimating. Write a **report** on this and, using the training material given and any other sources that you can find on the internet or in books, comment on the effectiveness of how estimating is undertaken in your organisation. It might be useful to use the following questions as a guide:

- What different estimating techniques are used within your organisation?
- When in the project life cycle are they used and what are they used for?
- How are they used in relation to estimating theory?
- Also, what norms are held within your organisation?
  - Where are the norms held for work previously carried out?
  - Who is responsible for maintaining norms?
  - How are they updated? / stored?
- What factors have been used in estimates in the past for your organisation?

Using a real project from your organisation as an example of estimating, detail how the estimate was put together:

- What information was used?
- Where did this information come from?
- How was the estimate created?

Approach this report in the same way as you were instructed to approach the Module A individual assignment. Submit as outlined in the Module A instructions.

Write about 1000 words, plus illustrations/diagrams and plus bibliography. This is approximately 2-4 sides of A4.

### The learning outcome that this work contributes to is:

Have an appreciation and understanding of the preparation of estimates.

You will be marked against the following criteria:

|                                                               | Available marks | Actual marks |
|---------------------------------------------------------------|-----------------|--------------|
| Explanation of estimating techniques used in organisation.    | 20              |              |
| Comparison to theory.                                         | 20              |              |
| Explanation of norms in organisation.                         | 10              |              |
| Factors in estimates.                                         | 10              |              |
| Workplace example.                                            | 15              |              |
| Report structure (clear introduction, clear conclusion etc.). | 5               |              |
| Evidence of further reading.                                  | 5               |              |
| Use of referencing and illustrations.                         | 5               |              |
| Standard of spelling, grammar and clarity of expression.      | 10              |              |
| Total                                                         | 100             |              |
