

Individual assignment - project change control

Find out how project change control is handled in your own organisation. Write a review of this and, using the notes and any other sources that you can find on the internet or in books, comment on the effectiveness of the processes used. This should include an example of a change that has been evaluated within your organisation.

Approach this report in the same way as you were instructed to approach the Module A individual assignment. Submit as outlined in the Module A instructions.

Write about 1000 words, plus illustrations/diagrams and plus bibliography. This is approximately 2-4 sides of A4.

The learning outcome that this work contributes to is:

Have an appreciation and understanding of the sources of change, the impact of change on the project and the requirements to manage change effectively

This is what your answer will be marked against:

	Available marks	Actual marks
Description of project change.	10	
Benefits of managing project change well.	10	
Review of how your company manages project change and the change control process. This should include an example of a change that has been evaluated within your organisation.	25
